Dear Pet Owner:

Thank you for giving Dr. Kiley and Vetpet counseling the opportunity to help you and your pet. We have enclosed a questionnaire to better help us access your pet's lifestyle and needs. We ask that you return the questionnaire to Dr Kiley via fax, or mail.

We recommend all primary caretakers be present for the consultation. Please do not feed your pet breakfast if an am visit or dinner if a pm visit. Please have your pet wear the collar you normally use during exercise.

Home visits generally last 60-90 minutes depending on the extent of the issue(s). If your pet is being seen for aggression, we may ask you to sign a liability release form. This is not a reflection on your pet, or on you, but simply used to protect all parties.

We look forward to working with you and hope to strengthen the relationship between you and your pet.

Sincerely,

Shannon M Kiley DVM
